## SCHOOL REPORT.

---

In compliance with the law, the following report of the Board of Education of Loudon, N. H., for the year ending March, 1888, is respectfully submitted.

During the past year we made it an object to secure the services of teachers whose system of teaching and whose characters and qualifications could not be disputed, and we are confident that in no instance have we been deceived. Although in some of the schools there has been a tendency on a part of the parents to freely criticise the teachers and their methods, while their children are permitted to leave the school whenever they disagree with the teachers. This should not be allowed. It retards the progress of the school greatly, and if parents will not willingly let their children attend school more regularly we shall be compelled to enforce a law which may be found in the "Laws of 1881, Chapter 42, Section 1, Page 464."

Our statistical table will show you that we tried to give each scholar an equal amount of schooling. At the close of each term we found that thoroughness had invariably been their motto. In a few schools we found rhetorical exercises had been practiced during the term. We would suggest this important exercise in all the schools the coming year. Our teachers the past year, with the exception of two, have been residents of the town. We think when we can obtain equally as good talent at home as abroad, we should give them the preference, and by so doing keep the money that is raised by the town for the support of schools in town. The question has been asked by our home teachers why we do not pay

as high wages as they do in other towns. We cannot, because we do not raise only the amount of money we are obliged to. Now, legal voters, come up and let us raise a few hundred dollars more than what the law requires and give our children an equal chance with those of adjoining towns. In many instances we think the "new law" has proved beneficial throughout the year. And, as it is a law, let us thoroughly test it before we utterly condemn it. In conclusion, let us all unite in an earnest effort to elevate and improve the condition of our schools, forgetting personal differences in our desire for the commonwealth.

#### ROLL OF PERFECT ATTENDANCE.
